

Concussion Protocol

Scoil Mhuire Cork has formally adopted a Return to Play Protocol. This Concussion protocol was adopted by Scoil Mhuire Cork in June 2015. We encourage you to read and become fully familiar with its contents. It is vital also that parents/guardians inform the Principal immediately of any suspected concussion incurred during outside school activities. This information is important for your child's safety and treatment.

3 documents can be found on the school website in this regard. These are:-

1. The Return to Play Protocol.
2. Concussion Management – Return to Play Protocol Form which is to be completed by Parents, students and school following a concussion injury).
3. The Concussion Protocol Form, to be completed by parents/guardians on student enrolment into Scoil Mhuire Cork.

In appreciation,

Regina Butler

Principal
